

INSPIRE Questionnaire for Parents of Youth with Type 1 Diabetes (Post Intervention)

We would like to ask about your thoughts and feelings about your experience when using an automated insulin dosing system (**abbreviated AID**), sometimes called a closed loop system, artificial pancreas or bionic pancreas. We would like you to think about living with diabetes and the things that may have been better or worse by using the **AID**. **For each of the questions below, please tick (check) the box that best fits your answer. Please answer every question.**
