

INSPIRE Questionnaire for Partners (Post Intervention)

We would like to ask about your thoughts and feelings about your experience using an automated insulin dosing system (**abbreviated AID**), sometimes called a closed loop system, artificial pancreas or bionic pancreas. We would like you to think about living with diabetes and the things that may have been better or worse by using **AID**. **For each of the questions below, please tick (check) the box that best fits your answer. Please answer every question.**
